

Aislyn Technologies Pvt Ltd

ROBOTIC PROJECTS

1. IoT and Wireless Sensor Network based Autonomous Farming Robot
2. Design and Development of IoT based Robotic Arm by using Arduino
3. IOT Social Distancing & Monitoring Robot for Queue
4. Advanced android mobile controlling robot
5. Low-Cost, Real-Time Obstacle Avoidance for Mobile Robots
6. Embedded and Real Time System Design: A Case Study Fire Fighting Robot
7. Autonomous Agricultural Robot
8. Wall Follower Robot
9. Line Follower and Bluetooth controlled Robot
10. Smoke and LPG Gas detection robot with wireless control
11. Light Following Robot
